You are Drak the Last of the Obliterators, a genetically enhanced and awesome fighting machine bio-engineered for the execution of incredible tasks, the ultimate solution to the most cataclymsic of predicaments.

Your personal communicator bleeps. A summons. The Federation Council of Elders want you. And they want you now!

You shudder – the adrenalin is pumping. Your're tough, you're mean, and you're ready for action – but what's in store?

Something big is about to break – the star fleet was on Red alert for days – then this morning the entire fleet had gone and no one knew where.

It had been destroyed by a single Alien Spaceship. Enormous in size and apparently invulnerable, this craft was now heading straight into the centre of Federation Space. Its mission – to destroy the Federation homeland – Earth.

Only one thing can save the Federation now – you . . .
THE LAST OBLITERATOR.
